

Living Every Moment

hospice
north shore

I think that if you are really sick you should have the most comfortable bed in the world.

Please help me raise enough money to get new beds so that all the people who stay in Hospice can be more comfortable and have lot's of room to snuggle.

My Sleepover At Hospice 🐼

By Rosetta Feasey-weiss and my mum Patricia Weiss

When mum stayed in the Hospice me, my sister Emara and my dad spent a lot of time there with her. It was great that mum got looked after and we had some fun with her when we visited.

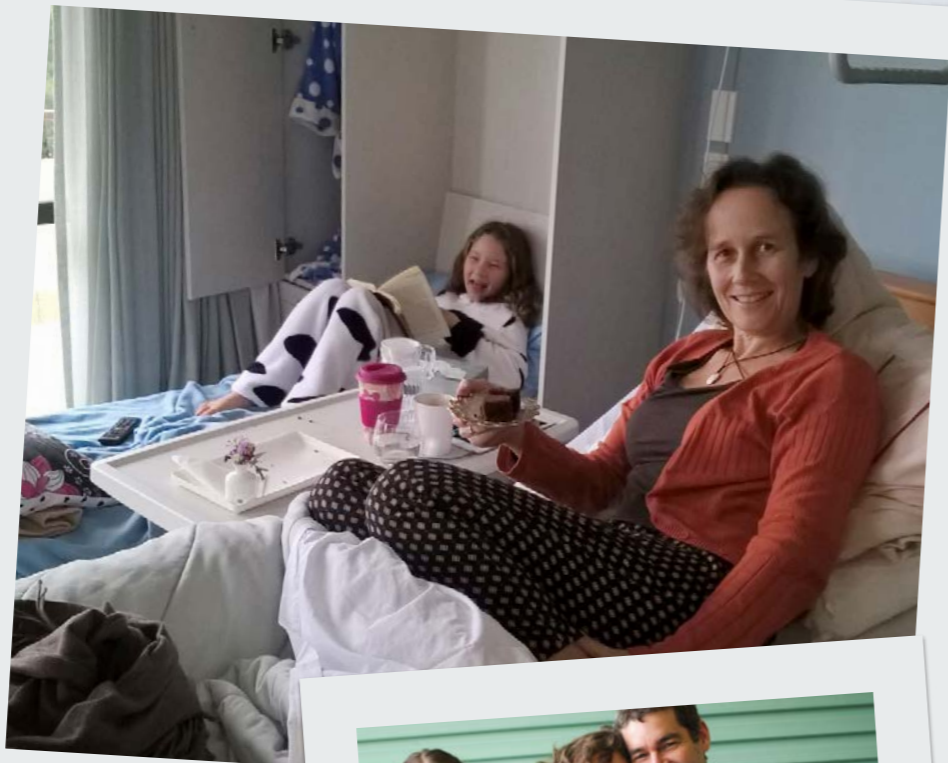

Everyone was really nice and I got to know the nurses, volunteers and other people at Hospice.

But I missed mum at home; especially at night, because she would always give me a hug and kiss goodnight. So I asked if I could have a sleepover with her. The nurses said 'of course!' and they showed me the awesome hideaway bed right next to Mum's bed.

I was sooooo excited!

We ~~took~~ ^{lay} in our beds talking, reading and laughing till late and the next day the ladies in the kitchen brought us breakfast on a tray so we could eat in bed watching one of my favourite tv shows.

That was awesome! I loved it!

The only thing I couldn't do was snuggle up with mum in ^{her} bed. It wasn't as big and snuggly as mum and dad's bed at home. Dad tried to cuddle with mum one day and nearly fell out!

Mum said that she was looking forward to getting back into her own bed at home.

Comfort and snuggle time is ^{the} best when you are sick... especially when you are big snugglers like me and my mum!

Will you please help me raise money we need to buy comfy new beds for people like my mum?

*Can you help buy
a bed for someone like
Rosetta's Mum?*

You are part of the North Shore community that recently helped refurbish the inpatient unit and gave Rosetta and her Mum, Patricia, precious quality time together.

Rosetta slept in one of the new tiltaway beds bought with that support. Meanwhile Patricia was in a bed that now needs replacing.

Please help Rosetta give the most fundamental gift of comfort

When someone is ill, a soft, and yielding bed is crucial to their comfort. We have found beds that will better meet the needs of our patients. They are wide and comfortable – like a domestic King Single bed – and built using the latest technology. One bed costs \$8,558. We need to buy 11*.

Please help Rosetta!

I wish you all the best this Christmas

Yours sincerely

Jan Nichols

Chief Executive

*Although we care for up to 9 people at a time in our inpatient unit, we need to 'rotate' the beds; to allow for cleaning and 'resting'.

Hospice's beds need replacing: please can you help?

Rosetta wants to help raise money to buy new beds for people like her Mum, who recently stayed in the inpatient unit. ***Can you help her?***
